

# Santa Suit Christmas Cards

## Materials\*:

Red card stock (1 sheet = 2 cards)

Black paper

Gold paper

1" round self stick labels

Scissors

Craft knife

Glue stick

Self-healing cutting mat or scrap cardboard

Invitation size envelopes

Computer (optional)

Printer (optional)

## Instructions:

Using a computer and printer (hand write or stamp), print inside sentiment on card on the right side on the red card stock lining up wording to fit in the space.

Cut printed paper in half to make two cards. Fold card in half with sentiment on the inside.

Attach round labels to the front of the card as shown.

Using templates provided, trace and cut buckle out of the gold paper. With the craft knife, make slits in the sides of the gold buckle to slide belt through. Be sure to protect your table surface with the self-healing cutting mat or scrap cardboard. Trace and cut belt out of black paper.

Slide black belt through gold slits of the buckle and center buckle on the belt.

Glue belt to lower part on the front of the card lining up the buckle with the white circles.

Enjoy!

\*When I see a project I like, I look at what materials were used so I know ahead of time if I need to go to a specialty store. Since I have very limited resources where I live, I try to get everything locally. So here's the list of my materials:

Red card stock from Staples® (individual sheets at the Copy Center). Later I found a pack of 50 sheets at Joann Fabrics®.

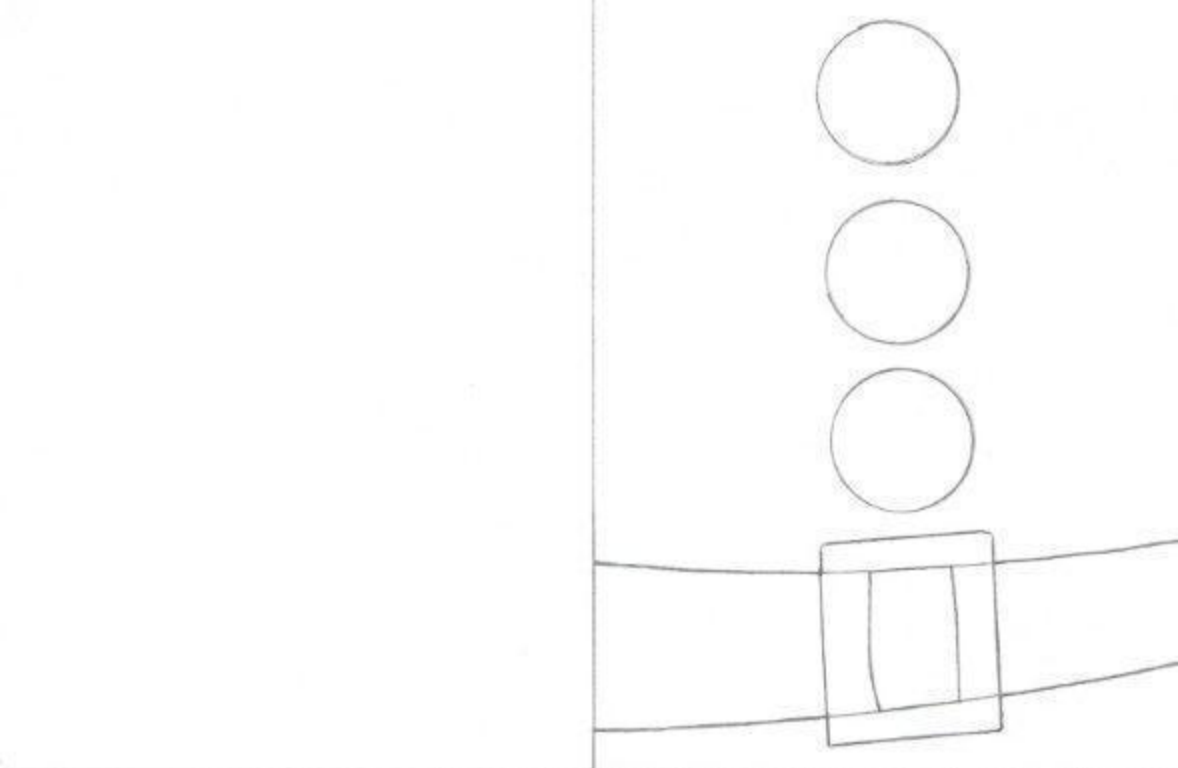

Black scrapbook paper

Gold scrapbook paper

Avery Removable Multi-Use Labels 1-inch round 5410™

Invitation size envelopes from Staples®

I get no compensation from Staples®, Joann Fabrics®, or Avery®. (Drat!)
